## ***INDEPENDENT AUDITOR'S REPORT***

Honorable Board of County Commissioners  
Niobrara County, Wyoming

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Niobrara County, Wyoming, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Niobrara County, Wyoming's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Niobrara County, Wyoming, as of June 30, 2022, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Niobrara County, Wyoming and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of Matter - Change in Accounting Principle***

As discussed in Note 1 to the financial statements, Niobrara County, Wyoming adopted new accounting guidance with the implementation of GASB Statement No. 87, *Leases*. Niobrara County, Wyoming reported a lease asset and lease liability for the change in accounting principle. Our opinion is not modified with respect to that matter.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**MAIL:** PO Box 2750  
Casper, WY 82602-2750

**PHONE:** (307) 265-4311  
**FAX:** (307) 265-5180

**LOCATION:** 600 East 1<sup>st</sup> Street  
Casper, WY 82601

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Niobrara County, Wyoming's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Niobrara County, Wyoming's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Niobrara County, Wyoming's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Niobrara County, Wyoming's basic financial statements. The other supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 15, 2023 on our consideration of Niobrara County, Wyoming's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Niobrara County, Wyoming's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Niobrara County, Wyoming's internal control over financial reporting and compliance.

**MANAGEMENT'S  
DISCUSSION  
AND ANALYSIS**

*This page is intentionally left blank*

**Management's Discussion and Analysis**  
**(Unaudited)**

---

As management of Niobrara County ("County"), we offer readers of Niobrara County's financial statements this narrative overview and analysis of the financial activities of Niobrara County for the fiscal year ended June 30, 2022.

***Financial Highlights***

- The assets of Niobrara County exceeded its liabilities at the close of the most recent fiscal year by \$17,421,242 (*net position*). Of this amount, \$5,655,380 (*unrestricted net position*) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year, Niobrara County's governmental funds reported combined ending fund balances of \$7,017,492. Of this total amount, \$5,511,823 is available for spending at the government's discretion (unassigned).
- The County's debt, other than compensated absences, increased overall by \$16,314 due to the addition of new capital leases.

***Overview of the Financial Statements***

This discussion and analysis is intended to serve as an introduction to Niobrara County's financial statements. Niobrara County's financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary and other supplementary information in addition to the financial statements themselves.

***Government-wide Financial Statements***

The government-wide financial statements are designed to provide readers with a broad overview of Niobrara County's finances, in a manner similar to a private-sector business. The statement of net position presents information on all of Niobrara County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Niobrara County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave.)

Government-wide financial statements distinguish functions of any government that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of Niobrara County include general government, public safety, public works, health, welfare and recreation, and conservation of natural resources.

The government-wide financial statements include not only Niobrara County itself, (known as the primary government), but also the following legally separate entities: Niobrara County Weed and Pest Control District, Niobrara County Library Board, Niobrara County Fair Board, and Niobrara County Predator Management District. The County is financially accountable for these entities and appoints directors to their boards. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

**Management's Discussion and Analysis  
(Unaudited)**

---

***Fund Financial Statements***

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Niobrara County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Niobrara County can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

The focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Niobrara County maintained seven individual governmental funds during the year. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for all seven funds. The general fund, the county road construction fund, federal and state grants fund and the capital facilities fair, library, courthouse fund are considered to be major funds.

Niobrara County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Fiduciary funds - fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of the funds are not available to support Niobrara County's own programs.

***Notes to the Financial Statements***

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

***Other information***

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information concerning Niobrara County's budgets for the major funds and other supplementary information

**Management's Discussion and Analysis  
(Unaudited)****Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Niobrara County's net position, 60% reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that is still outstanding.

Niobrara County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Although Niobrara County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Comparative Statement of Net Position**

| Unrestricted                               | 5,655,380            | 5,544,498            |
| <b>Total net position</b>                  | <u>\$ 17,421,242</u> | <u>\$ 18,037,629</u> |

At the end of the current fiscal year, Niobrara County is able to report positive balances in all categories of net position, both for the government as a whole, as well as for its separate governmental activities.

**Management's Discussion and Analysis**  
**(Unaudited)**

The government's net position decreased by approximately \$616,387 during the current fiscal year.

| <b>Total expenses</b>                                      | <u>4,728,294</u>     | <u>4,960,551</u>     |
| <b>Change in net position</b>                              | (616,387)            | (368,804)            |
| Net position - beginning of year                           | 18,037,629           | 18,406,433           |
| Net position - end of year                                 | <u>\$ 17,421,242</u> | <u>\$ 18,037,629</u> |

Revenue decreased due to completion of the fairgrounds improvement project funded by grants from the Wyoming Business Council and the State Lands and Investment Board. The County also received fewer COVID-19 related grants, leading to a further decrease in revenue.

Expenses in general government increased due to fixed asset depreciation expense. The health, welfare and recreation expenses decreased due to COVID-19 grants ending in the current fiscal year.

**Management’s Discussion and Analysis  
(Unaudited)**

---

***Governmental Funds Financial Analysis***

As noted earlier, Niobrara County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds - The focus on Niobrara County’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Niobrara County’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Niobrara County’s governmental funds reported ending fund balance of \$7,017,492, an increase of \$60,188, as compared to the prior year.

The general fund is the chief operating fund of Niobrara County. At the end of the current fiscal year, unassigned fund balance of the general fund was \$5,513,343. As a measure of the general fund’s liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures.

The fund balance of Niobrara County’s general fund increased by \$98,057 during the current fiscal year.

***General Fund Budgetary Highlights***

Niobrara County remains steadfast in its commitment to its citizens to be as fiscally responsible as possible while performing statutory duties as efficiently as possible.

Grants continue to provide a source of revenue to the County. Public health used COVID-19 grants to provide vaccine clinics and public information through advertising. The prevention grant allowed for activities the County would not otherwise undertake, including substance abuse and suicide prevention.

***Capital Asset and Debt Administration***

Niobrara County’s capital assets for its governmental type activities as of June 30, 2022, amounts to \$10,460,810, net of depreciation. The capital assets include land, construction in progress, buildings, vehicles, machinery and equipment, infrastructure and right-to-use leased equipment. The total decrease in Niobrara County’s capital assets for the current year was \$673,964.

The county road construction fund continues to provide funding necessary to upgrade and maintain Niobrara County roads and bridges.

**CAPITAL ASSETS (NET OF DEPRECIATION)**

**Management's Discussion and Analysis  
(Unaudited)**

---

***Long-Term Debt***

At the end of the current fiscal year, Niobrara County had debt of \$34,150 from leases for two copiers and a postage meter. The County also has long-term debt related to amounts due to employees for accrued compensated absences.

***Economic Factors and Future of the County***

The County is planning to purchase and remodel a Public Health building using American Rescue Plan Act (ARPA) funding and plans to purchase three vehicles for the Sheriff's Office. Ultimately, the County has tentative plans to use ARPA and Local Assistance and Tribal Consistency funds to repair the auditorium roof at the fairgrounds as it is used as an emergency shelter and was used as a COVID-19 vaccination site.

**Requests for Information**

The financial report is designed to provide a general overview of Niobrara County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the County Clerk, 424 S. Elm, Lusk, WY 82225.

**Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position**

---

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances - governmental funds \$ 7,017,492

Capital assets, net of accumulated depreciation, used in governmental activities are not current financial resources, and therefore, are not reported in the governmental fund statements. As capital assets used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in the governmental funds. This is the total of capital assets reported in the government-wide statements. 10,460,810

Long-term liabilities that are not due and payable in the current period, and therefore, are not reported in the governmental funds.

|                      |                 |          |
|----------------------|-----------------|----------|
| Leases               | \$ (34,150)     |          |
| Compensated absences | <u>(60,845)</u> | (94,995) |

Since the focus of governmental funds statements is on the short-term financing, some assets will not be available to pay for current expenditures. Those assets are offset by the deferred revenue in the governmental funds and are not included in the governmental fund balances.

|  |  |               |

Niobrara County, Wyoming

Year Ended June 30, 2022

**Reconciliation of the Statement of Revenues, Expenditures and  
Changes in Fund Balances of Governmental Funds to the Statement of Activities**

---

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ 60,188

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

This is the amount by which depreciation exceeds capital outlay.

|                      |                    |           |
|----------------------|--------------------|-----------|
| Capital outlay       | \$ 414,967         |           |
| Depreciation expense | <u>(1,088,931)</u> | (673,964) |

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on the government-wide changes in net position. This is the net effect of these differences in the treatment of long-term debt, including compensated absences:

|  |                 |          |
|--|-----------------|----------|
| Lease proceeds                               | (23,340)        |          |
| Principal paid on long-term debt obligations | 7,026           |          |
| Compensated absences - prior year            | 62,683          |          |
| Compensated absences - current year          | <u>(60,845)</u> | (14,476) |

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.

|   |              |               |
|---|--------------|---------------|
| Difference in unavailable property tax revenue - current year | 37,935       |               |
| Difference in unavailable property tax revenue - prior year   | (25,959)     |               |
| Unavailable revenue - other government - prior year           | <u>(111)</u> | <u>11,865</u> |

Change in net position of governmental activities \$ (616,387)

**Note 1. Nature of Operations and Significant Accounting Policies**

***The Reporting Entity***

Niobrara County, Wyoming (the "County") (primary government) is a municipal corporation governed by three elected commissioners. The County provides the following services as authorized by statute: public safety, road and bridge maintenance and operation, health and social services, culture-recreation, public improvements, planning and zoning, and general administrative services. As required by generally accepted accounting principles, these financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the basic financial statements to emphasize that it is legally separate from the County and each has a June 30 year end.

***Discretely Presented Component Units***

The component unit columns in the basic financial statements include the financial data of the County's component units. They are reported in a separate column to emphasize that they are legally separate from the County. The governing boards of all of these component units are appointed by the Board of County Commissioners.

The *Weed and Pest Control District* was established for the purpose of implementing and pursuing an effective program for the control of weeds and pests within the County. This District is fiscally dependent upon the County because the Board of Commissioners approves the budget and levies taxes (if necessary) on behalf of the Weed and Pest Control District. This District is presented as a governmental fund type component unit. The Weed and Pest Control District does not issue separate financial statements.

The *County Library Board* maintains and manages the operations of the County Library and library system. The Library is fiscally dependent upon the County because the Board of Commissioners approves the Library's budget, levies taxes (if necessary), and must approve any debt issuances. The Library's taxes are levied under the taxing authority of the County and are included as part of the County's total tax levy. The Library is presented as a governmental fund type component unit. The Library does not issue separate financial statements. Also included in the Library's financial data is financial information of the Library's fund-raising association the Niobrara County Library Foundation (the "Foundation"). Although the Library does not control the timing or amount of receipts from the Foundation, the majority of resources, and income thereon which the Foundation holds or invests, is restricted to the activities of the Library by the donors. Because the restricted resources held by the Foundation can only be used by, or for the benefit of, the Library, the Foundation is considered a component unit of the Library and is included in the Library's financial statements.

The *County Fair Board* maintains and manages the operations of the County Fair and conducts agricultural, industrial and other fairs and exhibitions within the County. The Fair is fiscally dependent upon the County because the Board of Commissioners approves the Fair's budget, levies taxes (if necessary), and must approve any debt issuances. The Fair's taxes are levied under the taxing authority of the County and are included as part of the County's total tax levy. The Fair is presented as a governmental fund type component unit. The Fair does not issue separate financial statements. Also included in the Fair's financial data is financial information of the Fair's fund-raising association the Niobrara County Fair Foundation (the "Foundation") and the Livestock Committee. Although the Fair does not control the timing or amount of receipts from the Foundation or the Livestock Committee, the majority of resources, and income thereon which the Foundation and the Livestock Committee holds or invests, is restricted to the activities of the Fair. Because the restricted resources held by these entities can only be used by, or for the benefit of, the Fair, these entities are considered component units of the Fair and are included in the Fair's financial statements.

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Discretely Presented Component Units (Continued)***

The *Predator Management District* was established for the purpose of exercising general supervision over the eradication and extermination of predatory animals that prey upon and destroy livestock, pigs, poultry, other domestic animals and wild game. In prior years, the County provided significant subsidies to this District; however, none have been necessary in recent years. The Predator Management District is considered a component unit of the County due to the nature and significance of its relationship to the County, and in the opinion of the Commissioners its exclusion would render the financial statements of the County incomplete. This District is presented as a governmental fund type component unit. The Predator Management District does not issue separate financial statements.

The accounting policies of Niobrara County conform to generally accepted accounting principles as applicable to governments. The following is a summary of the most significant policies:

***Government-wide and Fund Financial Statements***

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

***Measurement Focus, Basis of Accounting, and Financial Statement Presentation***

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)***

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period.

For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. For the County's intergovernmental revenues related to grants, the revenue is considered available if collected within 90 days. This is extended for grant revenues to better align with grant expenditures. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service principal and interest expenditures, including lease liabilities, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. General capital asset acquisitions, including entering into contracts giving the County the right-to-use leased assets, are reported as expenditures in governmental funds.

Property taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Federal and State Grants fund is a *special revenue fund* used to account for the revenue and expenditures of various federal and state grants.

The County Road Construction fund is a *capital project fund* and is used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

The Capital Facilities Fair, Library, Courthouse fund is a *capital project fund* and is used to account for acquisition and construction of major capital facilities.

Additionally, the County reports the following fund types:

The Jail O&M fund is a *capital project fund* and is used to account for operations and maintenance of the jail.

The E-911 fund is a *special revenue fund* used to account for the revenue and expenditures of E-911 monies.

The 1% fund is a *special revenue fund* used to account for the revenue and expenditures of 1% monies.

Additionally, the government reports the following fund types:

The *custodial fund* is custodial in nature and is used to account for assets that the County holds for others in a fiduciary capacity (e.g. taxes collected by the treasurer for the benefit of other governments).

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity***

***Cash and Cash Equivalents***

The County defines its cash and cash equivalents to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition to be cash and cash equivalents.

The County's cash activity is accounted for in pooled cash accounts. The accounting records for each applicable fund reflect its portion of the pooled cash and/or investments or its actual cash balance. When a particular fund overdraws its share of the pooled cash, the deficit is recorded as a payable to the general fund and a corresponding entry is made in the general fund to reflect the receivable from the other fund.

***Investments***

The County follows the guidelines described in Wyoming Statute 9-4-831 as it relates to the investment of public funds. Wyoming Statutes authorize the types of investments in which counties may invest. Among these authorized investments are certificates of deposit, money market funds, commercial paper, obligations of the U.S. Treasury, agencies and instrumentalities of the U.S. Government, mortgage backed securities, guaranteed investment contracts, and repurchase agreements with banks with the underlying securities being obligations of the U.S. Treasury or agencies and instrumentalities of the U.S. Government.

WYO-STAR I is an authorized government investment pool established in 1987 offered exclusively to Wyoming governmental entities by the Wyoming State Treasurer's Office. The value of the County's investments in WYO-STAR I equals the value of its WYO-STAR I shares. Each participant's position in the WYO-STAR I investment pool is calculated by the proportion of the cost of their contribution to the total funds invested in the pool multiplied by the pool's total fair value as of any specific date. WYO-STAR I investments consist of short-term bonds and cash with a weighted average maturity which does not exceed 90 days, with a benchmark using Bank of America 3 month U.S. T-Bills index. The fair value of the County's position in these funds is the same as the value of the pool shares (net asset value) which are reported according to GASB 79 requirements. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

Wyoming Government Investment Fund (WGIF) is a governmental pool established in 1996 exclusively designed for Wyoming public entities. The WGIF Liquid Asset Series seeks to maintain a stable net asset value of \$1.00 and is managed to a maximum weighted average maturity of 60 days. Rated AAAM by Standard & Poor's. The value of the County's investment in WGIF equals the value of its WGIF shares.

Investments held in governmental investment pools have no withdrawal restrictions.

***Restricted Cash and Investments***

The County considers any cash that is legally restricted as to withdrawal or usage to be presented as restricted cash. The County has investments restricted by the DEQ for reclamation for the gravel pits of \$11,000. These amounts are held in certificates of deposit at a local bank. Additionally, the American Rescue Plan funding that was received was restricted for future spending in the amount of \$212,689.

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)***

***Endowments***

Restricted nonexpendable net position as of June 30, 2022 for the library foundation, represents the principal of permanent endowments restricted to investment in perpetuity by donors of the library foundation. Investment earnings, except for changes in fair market value, are expendable to support the purposes designated by donors.

***Receivables, Payables and Interfund Balances***

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Transfers and interfund transactions between governmental funds are eliminated in the government-wide financial statements.

Any advances between funds, would be offset by recognizing nonspendable fund balance in the applicable governmental funds. This indicates that the assets reported are not available for appropriation and are not expendable financial resources.

***Property Taxes***

There are two different types of ad valorem property tax assessment methodologies: non-mineral and mineral. Non-mineral properties are annually valued and assessed on January 1 at fair market value, and mineral properties are valued and assessed on prior year mineral production. Non-mineral property taxes attach as an enforceable lien on assessed property as of January 1 of each year and mineral property taxes attached as an enforceable lien upon the severance of the mineral. Property taxes are levied on or about August 1 and are due in two installments. The first installment becomes due on September 1 and delinquent on November 10; the second becomes due on March 1 and delinquent on May 10.

The County bills and collects its own property taxes as well as for all municipalities and political subdivisions within the county with the exception for mineral based ad valorem property taxes. The collection of mineral based ad valorem property taxes was significantly modified during the 2021 and 2022 Legislative Sessions. Beginning with mineral production year 2022, mineral ad valorem taxes are collected by the State of Wyoming and remitted to each county for the distribution. Previously, the County billed and collected mineral ad valorem taxes. For the mineral production year 2021, mineral producers had the option to defer payment of taxes until December 1, 2023 at which time the taxes are due at eight percent per year until paid. Beginning with 2022, mineral based ad valorem property taxes are due on or before the 25th day of the third month following the month of production.

**Notes to the Financial Statements****Note 1. Nature of Operations and Significant Accounting Policies (Continued)*****Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)******Property Taxes (Continued)***

The County's property tax revenues are recognized when levied to the extent they result in current receivables, which means when collected within the current period or expected to be collected within 60 days of the fiscal year end to be used to pay liabilities of the current period on the fund financial statements. Property taxes which are not current receivables are offset by deferred inflows of resources on the fund financial but are reported on the government-wide financial statements as revenue and receivables, with no amount being deferred when levied. Property taxes receivable are recognized as of the lien date; however, revenue is not recognized until the levy date. Mineral property taxes for 2022 production received by June 30, 2022 are not considered legally assessed and are recorded as unearned revenue in the fund and on the government-wide financial statements, if any.

The County is permitted by Wyoming Statutes to levy taxes up to 12 mills of assessed valuation for all purposes, exclusive of state revenue, except for the payment of public debt and interest thereon. The combined tax rate to finance general governmental services other than the payment of principal and interest on long-term debt for the year ended June 30, 2022, was 12 mills, which means the County has levied to the maximum amount available.

***Inventories***

Inventories are stated at the lower of cost (first-in, first-out method) or market. Inventories are accounted for using the consumption method by which inventory acquisitions are recorded in inventory accounts when purchased or received by other means and are charged to expense when consumed or sold.

***Capital Assets***

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the County as all tangible assets, over \$1,500, with a useful life in excess of one year to provide more accurate inventory of County assets. Such assets are recorded at historical cost (except for intangible right-to-use lease assets, the measurement of which is discussed in the leases accounting policy below) or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant, and equipment, the right to use leased equipment, and infrastructure of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

| Assets                            | Years |
|-----------------------------------|-------|
| Buildings                         | 20-50 |
| Infrastructure                    | 30-50 |
| Right-to-use leased equipment     | 5-20  |
| Vehicles, machinery and equipment | 5     |

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)***

***Collections***

The Niobrara County Library owns a collection of rare historical books on Wyoming, as well as its complete collection of library books. These items are not considered to be held for financial gain. All books in the collection are protected, kept unencumbered, and preserved. The Library has capitalized this collection. The library collection has a limited life and is available to be borrowed by the general public.

***Deferred Outflows of Resources and Deferred Inflows of Resources***

In addition to assets, the financial statements include a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the financial statements may include a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applied to a future period and will not be recognized as an inflow of resources (revenue) until that time. The County reports deferred outflows and deferred inflows of resources as follows:

*Unavailable Revenues* – Unavailable revenue is reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from one sources: property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the government-wide statement of net position, property tax revenue is reported as a deferred inflow of resources in the year a lien attaches to the property.

*Pension-Related Amounts* – In the government-wide statement of net position, a deferred outflow or deferred inflow of resources is reported for the unrecognized items not yet charged to component unit pension expense related to the net pension liability. This includes the unamortized portion of the net difference between projected and actual earnings on pension plan investments and other differences between expected and actual experience. Deferred outflows for the net difference between projected and actual investment earnings are recognized over a period of five years, while the deferred inflows or deferred outflows for the differences between expected and actual experience for economic/demographic assumptions are recognized over the remaining service life for all active and inactive members.

***Compensated Absences***

The County's policy for vacation is that any such amounts unused at the end of the fiscal year are accrued, limited to a 40 hour maximum. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The general fund has been used to liquidate these liabilities in prior years.

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)***

***Advance Payments on Grants***

Revenue received in advance of the performance of services deemed to be exchange transactions is deferred until such time as related expenditures are incurred and then recognized as revenue.

The County received an advance from the Coronavirus State and Local Recovery Funds. The amount of the received funds of \$212,530 is reported as advance payments on grants on the County's Statement of Net Position.

***Leases***

The County is a lessee for a noncancellable lease of a postage meter. The County recognized a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The County recognizes lease liabilities with an initial, individual value of \$1,500 or more.

At the commencement of a lease, the County initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the County determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The County uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the County is reasonable certain to exercise.

The County monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)***

***Long-Term Obligations***

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. In the fund financial statements, governmental fund types recognize proceeds from leases and are reported as other financing sources. Repayments of long-term debt (leases) are reported as debt service expenditures.

***Pensions***

For purposes of measuring the net position liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wyoming Retirement System ("WRS") plans and additions to/deductions from WRS's fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The primary government of Niobrara County does not participate in the Wyoming Retirement System, however, the Weed and Pest Control District, a component unit of the County, does participate.

***Fund Equity/Net Position***

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned or unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by creditors, grantors, or contributors or by enabling legislation or constitutional provisions. Committed fund balance is a limitation imposed by the government's board through approval of resolutions. Assigned fund balances is a limitation imposed by a designee of the government's board. Unassigned fund balance in the general fund is the net resources in excess of what can be properly classified in one of the above four categories.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

***Restricted Net Position***

For the government-wide financial statements, net position is reported as restricted when constraints placed on the net position is either: (1) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.

**Note1. Nature of Operations and Significant Accounting Policies (Continued)**

***Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)***

***Accounting Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures/expenses during the reporting period. Actual amounts could differ from those estimates.

***Budgets and Budgetary Accounting***

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

Prior to May 15, the County Clerk submits to the Board of County Commissioners a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.

A public hearing is conducted on the third Monday in July to obtain public comments.

The budget is adopted on the third Tuesday of July.

At the request of the County Clerk or upon its own motion after publication of notice, the Board of County Commissioners may by resolution transfer any unencumbered or unexpended appropriation balance or part thereof from one fund, department or account to another. Expenditures cannot exceed appropriations at the department level and any unexpended or unencumbered appropriations lapse at year end.

Formal legally adopted budgets are prepared as a management control device during the year for the General Fund, Special Revenue Funds and the County Road Construction Fund. The Capital Facilities Fair, Library, Courthouse Fund and the Jail O&M Fund does not set an annual budget as these funds are used to account for the Specific Purpose Tax of 1990 which can only be used for the voter approved projects.

Budgets for the County are adopted on a cash basis (budgetary). Capital Projects Fund expenditures are budgeted within the General Fund. The County's budgetary basis is not consistent with generally accepted accounting principles (GAAP).

**Note 1. Nature of Operations and Significant Accounting Policies (Continued)**

***Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)***

***Standards Implemented in the Current Year***

GASB Statement No. 87, *Leases*, was issued to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases. Under this standard, government lessors must recognize (a) a lease receivable and (b) a deferred inflow of resources and continue to report the leased asset in its financial statements; and report in its financial statements (a) lease revenue recognized over the term of the lease, corresponding with the reduction of the deferred inflow, (b) interest income on the receivable, and (c) note disclosures about the lease. Additionally, under this statement, a government entity that is a lessee must recognize (1) a lease liability and (2) an intangible asset representing the lessee's right to use the leased asset. The County must also report the (1) amortization expense for using the asset over the shorter of the term of the lease or the useful life of the underlying asset, (2) interest expense on the lease liability and (3) note disclosures about the lease. The Statement provides exceptions from the single-approach for short-term leases, financial purchases, leases of assets that are investments and certain regulated leases. This statement also addresses accounting for lease terminations and modifications, sale-leaseback transactions, nonlease components embedded in lease contracts (such as service agreements), and leases with related parties. Management implemented this standard during the year ended June 30, 2022.

**Note 2. Cash and Cash Equivalents and Investments**

***Custodial Credit Risk – Deposits***

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository institution, the County will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require that the County's deposits in excess of the Federal depository insurance must be collateralized.

In accordance with State Statutes, the County maintains deposits at those depository banks authorized by the County Commissioners. As of June 30, 2022, all of the County's bank deposits were fully covered by Federal depository insurance or collateral held by the pledging bank's trust department or by its agent under joint custody receipts as required by state statutes.

***Primary Government***

Deposits held in the County's bank accounts are insured by federal depository insurance or are collateralized with securities held by the pledging institution's trust department or agent, in joint custody of the bank and the County. As of June 30, 2022, the County had balances in the bank of \$3,175,526. The difference between the carrying amount and the bank balance is the result of the transactions in transit.

**Notes to the Financial Statements****Note 2. Cash and Cash Equivalents and Investments (Continued)****Primary Government (Continued)**

The carrying amounts for the bank deposits are listed below:

|   | <u>Carrying Amount</u> |
|---|------------------------|
| Government-wide Statement of Net Position |                        |
| Governmental activities                   | \$ 2,139,535           |
| Fiduciary Fund Statement of Net Position  |                        |
| Custodial Fund                            | 628,238                |
| Total carrying amount of deposits         | <u>\$ 2,767,773</u>    |

**Component Units**

As of June 30, 2022, the County's component units had balances in the bank of \$1,978,662. The difference between the carrying amount and the bank balance is the result of transactions in transit, if any. The carrying amounts for the bank deposits are listed below:

|   | <u>Carrying Amount</u> |
|---|------------------------|
| Component Units Statement of Net Position |                        |
| Weed and Pest Control District            | \$ 598,418             |
| Library Board                             | 121,701                |
| Fair Board                                | 66,423                 |
| Predator Management District              | 83,174                 |
| Total carrying amount of deposits         | <u>\$ 869,716</u>      |

Additionally, there is approximately \$15,000 in cash held by the Wyoming State Library Division included in the library board bank deposits.

**Investments**

As of June 30, 2022, the County had the following deposits and investments:

| Type                                   | Fair Value          | Interest Rate   | Investment Maturity (in Years) |                     | Investment Rating |
|--|---------------------|-----------------|--------------------------------|---------------------|-------------------|
|  |                     |                 | Less Than 1                    | 1-5                 |                   |
| Primary government                     |                     |                 |                                |                     |                   |
| Non-negotiable certificates of deposit | \$ 11,000           | 0.20-1.50%      | \$ 1,000                       | \$ 10,000           | N/A               |

N/A - not available, investment is unrated

***Interest Rate Risk***

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in the market interest rates. The County does not have a formal policy to address interest rate risk. The County's investments are held in external pooled investment accounts with a focus on liquidity as a means of limiting its exposure to fair value losses arising from interest rates. With this investment focus, investments are expected to reach maturity with limited gains and losses.

***Credit Risk***

Generally, credit risk is the risk that an issuer of investments will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. State law does not allow governments to invest in corporate bonds, stocks or mutual funds and limits investments in commercial paper to short-term maturities (not greater than 270 days) and to the top ratings issued by nationally recognized statistical rating organizations (Moody's and Standard and Poor's). Obligations of the U.S. Government are backed by the full faith and credit of the U.S. Government. The County follows the mandates for allowable investments as prescribed by Wyoming Statute 9-4-831 as their credit risk policy. Under the investment agreement with WYO-STAR the County's interest is based on the ratio of their cash balance as a percentage of the total cash balance of the pool. WYO-STAR I invest in asset backed securities, the collateral for which is securities issued by GNMA, FNMA, FHLMC or notes fully guaranteed as to principal and interest by the Small Business Administration, and government securities including obligations of the U.S. Treasury and U.S. government agencies.

**Notes to the Financial Statements****Note 2. Cash and Cash Equivalents and Investments (Continued)*****Concentration of Credit Risk***

The concentration of credit risk is the risk of loss that may be caused by the County's investments in a single issuer. The County does not have a formal policy that allows for or limits an investment in any one issuer that exceeds a specified percentage of the County's total investments. The composition of the investment portfolio of the County at June 30, 2022 is as follows:

| <u>Deposit and Investment Type</u> | <u>Fair Value</u>   | <u>Percent of Portfolio</u> |
|------------------------------------|---------------------|-----------------------------|
| Certificates of deposit            | \$ 11,000           | 0.23%                       |
| U.S. Government bonds              | 697,078             | 15.09%                      |
| U.S. Treasury securities           | 96,809              | 2.10%                       |
| WGIF                               | 1,491,305           | 32.28%                      |
| WYO-STAR I                         | 2,323,407           | 50.29%                      |
|                                    | <u>\$ 4,619,599</u> | <u>99.99%</u>               |

***Custodial Credit Risk - Investments***

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities held in the possession of an outside party. The County does not have a formal policy for custodial credit risk; however, all of the County's investments were held by nationally recognized brokers or the Treasurer for the State of Wyoming in the County's name. While the County has no formal policy for custodial credit risk for investments, management believe the stability and reputation of these brokers and banks serves to limit its custodial credit risk.

**Note 3. Fair Value Measurements**

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. WYOSTAR I measures its investments at fair value in accordance with paragraph 41 of Statement 79 and Paragraph 11 of Statement 31, and therefore a participant's investment in WYOSTAR I is not required to be categorized within the fair value hierarchy for purposes of Paragraph 81a(2) of Statement 72.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at June 30, 2022:

*U.S. Government Bonds:* Valued using quoted prices for identical or similar assets in active markets.

*U.S. Treasury Securities:* Valued at the closing price reported in the active market which the individual securities are traded.

**Notes to the Financial Statements****Note 3. Fair Value Measurements (Continued)**

The following table sets forth by level, within the fair value hierarchy, the County's investment at fair value as of June 30, 2022:

**Primary Government Investments**

|  | Assets at Fair Value as of June 30, 2022 |                   |             |                     |
|--|--|-------------------|-------------|---------------------|
|  | Level 1                                  | Level 2           | Level 3     | Total               |
| Investments by fair value level        |  |                   |             |                     |
| U.S. Government bonds                  | \$ -                                     | \$ 697,078        | \$ -        | \$ 697,078          |
| U.S. Treasury securities               | 96,809                                   | -                 | -           | 96,809              |
| Total investments at fair value        | <u>\$ 96,809</u>                         | <u>\$ 697,078</u> | <u>\$ -</u> | <u>\$ 793,887</u>   |
| Other investments                      |  |                   |             |                     |
| Non-negotiable certificates of deposit |  |                   |             | 11,000              |
| Negotiable certificates of deposit     |  |                   |             | 482,660             |
| WGIF                                   |  |                   |             | 1,491,305           |
| WYO-STAR I                             |  |                   |             | 2,323,407           |
| Total primary government investments   |  |                   |             | <u>\$ 5,102,259</u> |

**Component Unit Investments**

|  |                     |  |
|--|---------------------|--|
| Other investments  |                     |  |
| Non-negotiable certificates of deposit                             | \$ 963,253          |  |
| WYO-STAR I   | 162,166             |  |
| Beneficial interest in assets held by Wyoming Community Foundation | 2,315,655           |  |
| Total component unit investments                                   | <u>\$ 3,441,074</u> |  |

**Note 4. Individual Inter-fund Receivables and Payables**

At June 30, 2022, the Federal and State Grants Fund owed the General Fund for outstanding pooled cash transactions that had not yet settled:

|                               | Receivable       | Payable          |
|-------------------------------|------------------|------------------|
| General Fund                  | \$ 14,091        | \$ -             |
| Federal and State Grants Fund | -                | 14,091           |
|                               | <u>\$ 14,091</u> | <u>\$ 14,091</u> |

The outstanding balances between funds results mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

**Notes to the Financial Statements****Note 5. Capital Assets****Primary Government**

Capital asset activity for the year ended June 30, 2022 was as follows:

|   | Beginning<br>Balance | Additions           | Deletions         | Ending<br>Balance    |

A summary of the long-term debt as of June 30, 2022 is as follows:

|   |                  |
|---|------------------|
| Lease purchase obligation on a copier, due in monthly installments of \$165, including interest of 10.94%, through February 2026, serviced by the general fund.       | \$ 6,005         |
| Lease purchase obligation on a copier, due in monthly installments of \$165, including interest of 10.94%, through February 2026, serviced by the general fund.       | 6,005            |
| Lease purchase obligation on a postage meter, due in monthly installments of \$401, including interest of 2.99%, through February 2027, serviced by the general fund. | <u>22,140</u>    |
|   | 34,150           |
| Less current maturities of lease purchase obligations   | <u>7,038</u>     |
|   | <u>\$ 27,112</u> |

Future minimum lease payments under lease purchase obligations together with the present value of net minimum lease payments as of June 30, 2022 are as follows:

| Year ending June 30, | Principal        | Interest        | Total            |
|----------------------|------------------|-----------------|------------------|
| 2023                 | \$ 7,038         | \$ 1,730        | \$ 8,768         |
| 2024                 | 7,478            | 1,291           | 8,769            |
| 2024                 | 7,955            | 814             | 8,769            |
| 2025                 | 7,138            | 311             | 7,449            |
| 2026                 | 4,541            | 71              | 4,612            |
|                      | <u>\$ 34,150</u> | <u>\$ 4,217</u> | <u>\$ 38,367</u> |

**Note 7. Fund Equity**

***Net Position Restricted by Legislation***

The government-wide statement of net position reports \$1,339,202 of restricted net position. The amount which is restricted for county road construction by State legislation is \$652,924, E-911 fund has \$18,605 restricted by federal regulations, and \$667,673 is restricted by as a special purpose tax assessed specifically for the Capital Facilities Fair, Library, Courthouse Fund, and Jail Operations and Maintenance Fund.

**Note 8. Transactions with Component Units**

During the fiscal year ended June 30, 2022, the County provided \$91,023, and \$24,748 in support to the Niobrara County Fair and the Niobrara County Library, respectively.

**Note 9. Risk Management**

The County is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. As a result of these and other risks, the County participates in the Wyoming Association of Risk Management (WARM), a management risk pool and WARM property insurance pool and Local Government Claims Act (W.S. 1-39-101) up to \$250,000 per claimant but not more than \$500,000 per occurrence, \$1,500,000 per occurrence, and \$5,000,000 annual aggregate for federal and out-of-state claims. The coverage limit is \$1,000,000,000 for all members combined of the WARM risk pool including various additional sub-limits. Claims have not exceeded coverage amounts in any of the last three years. Premiums paid to WARM and LGLP by the County were approximately \$37,089 and \$14,326, respectively.

During the year ended June 30, 2022, the County contracted with the entities above for property insurance (including boiler and machinery), general liability insurance, professional insurance and vehicle insurance. The coverage under each type of insurance policy varies in amounts and deductibles. The County has not had significant settlements exceeding insurance coverage in any of the past three years. The County has had no significant reductions in insurance coverage from coverage in the prior years. On September 20, 2019 the County began offering health insurance to employees working 30 hours or more per week. The County pays the employee's insurance premium, premiums for dependents are paid by the employee.

The County also participates in two other state sponsored, risk management programs under the Workers' Compensation Act and Unemployment Compensation Act.

Wyoming Statute 27-14-101 created the Wyoming Workers' Compensation Act which is administered as an enterprise fund by the State of Wyoming. All employers within the State of Wyoming are participants of this plan with only a few exceptions. This Act provides for the payment of benefits to employees for job-related injuries and diseases through the Workers' Compensation Fund. This Act provides general protection from suits filed by employees against the County.

The County makes quarterly payments to the Department of Employment, State of Wyoming. This amount is based on salaries and is a split rate between hazardous and non-hazardous positions. Amounts paid by the County to the State for Workers' Compensation during the fiscal year 2022 and 2021 were approximately \$51,863 and \$40,960, respectively.

Wyoming Statute 27-3-101 created the Wyoming Unemployment Compensation Act. This Act requires the County to pay the cost of actual claims incurred. There were no claims incurred or paid in 2022 or 2021.

**Notes to the Financial Statements****Note 10. Beneficial Interest**

The Library Foundation ("Foundation") transferred investments to the Wyoming Community Foundation specifying itself as the beneficiary. The Wyoming Community Foundation ("WCF") is a Wyoming not-for-profit organization. The WCF receives contributions that are specifically designated for the benefit of the Foundation. The WCF established an endowment fund to account for these permanently restricted contributions. Distributions of interest and dividend income to the Foundation for unrestricted use are to be made not less than annually, and distributions of \$85,076 occurred during the year ended June 30, 2022. In accordance with generally accepted accounting standards, the Foundation recorded its beneficial interest in the endowment fund and recorded as permanently restricted those contributions received by the WCF for the benefit of the Foundation. The Foundation's beneficial interest in WCF was \$2,315,655 and \$100,000 in a non-negotiable certificate of deposit as of June 30, 2022.

**Note 11. Construction Commitments**

The County had one outstanding construction project as of June 30, 2022. At year end the County's construction commitment is as follows:

| Project Name                              | Total<br>Contract Amount | Expended<br>To Date | Remaining<br>Commitment |
|---|--------------------------|---------------------|-------------------------|
| Road Rehab Project North Lance Creek Road | \$ 263,548               | \$ 247,818          | \$ 15,730               |
| Total construction commitments            | <u>\$ 263,548</u>        | <u>\$ 247,818</u>   | <u>\$ 15,730</u>        |

**Note 12. Issued Standards Not Yet Implemented**

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, provides accounting and financial reporting guidance for subscription-based information technology arrangements (SBITAs). It is based on the standards established in Statement 87, *Leases*. This standard (a) defines a SBITA as a contract that conveys control of the right to use a SBITA vendor's IT software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction; (b) requires governments with SBITAs to recognize a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability (with an exception for short-term SBITAs—those with a maximum possible term of 12 months); and (c) provides guidance related to outlays other than subscription payments, including implementation costs, and requirements for note disclosures related to a SBITA. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

GASB Statement No. 101, *Compensated Absences*, aligns recognition and measurement guidance for all types of compensated absences under a unified model which will result in governments recognizing a liability that more appropriately reflects when they incur an obligation for compensated absences. The model also will lead to greater consistency in application and improved comparability across governments. The requirements of the Statement are effective for reporting periods beginning after December 15, 2023.

Management has not yet completed its assessment of the effects of implementing these standards.

**Notes to the Financial Statements**

---

**Note 13. Wyoming Educator Benefit Trust**

The County participates in health care coverage through the Wyoming Educator Benefit Trust (WEBT). WEBT sets health care premium rates each year based on projected medical costs. In the year ended June 30, 2022, the County paid \$455,626 in premiums to WEBT. Were the County to withdraw from coverage through WEBT, the County would not be responsible for any specific liabilities nor is it entitled to any of the reserves. As a participating employer, if the trust is dissolved the County may be entitled to a residual portion of the plan reserves.

**Note 14. Commitments and Contingencies**

In the normal course of business, various lawsuits or claims are brought against the County. It is not possible to determine the ultimate disposition of these matters at this time; however, the County Attorney and the County Commissioners are of the opinion that these matters would not have a material adverse effect on the results of operations, financial condition, or cash flows of the County.

**Note 15. Subsequent Events**

The County purchased a public health building for approximately \$100,000 in September of 2022 using American Rescue Plan Act (ARPA) funding.

**Note 2. Budgeting**

Annual budgets are adopted on the cash basis for all governmental funds. Legal spending control for the County monies is at the function level. The County may amend the budget after it is appropriated using the same procedures necessary to approve the original budget at the functional level. Management monitors expenditures at budgetary line item levels within each fund to enhance the accounting control system and may amend the budget at this level as long as the functional level budget is maintained.

SECTION**

*This page is intentionally left blank*

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITOR'S REPORT**

Honorable Board of County Commissioners  
Niobrara County, Wyoming

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Niobrara County, Wyoming, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Niobrara County, Wyoming's basic financial statements and have issued our report thereon dated March 15, 2023

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Niobrara County, Wyoming's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Niobrara County, Wyoming's internal control. Accordingly, we do not express an opinion on the effectiveness of Niobrara County, Wyoming's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control described in the accompanying schedule of findings and responses as items 2022-001 and 2022-002 that we consider to be material weaknesses.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Niobrara County, Wyoming's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters we have reported to management of Niobrara County, Wyoming in a separate letter dated March 15, 2023.

### ***Niobrara County, Wyoming's Response to Findings***

*Government Auditing Standards* requires the auditor to perform limited procedures on Niobrara County, Wyoming's response to the findings identified in our audit and described in the accompanying schedule of findings and responses. The Niobrara County, Wyoming's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Material Weakness in Internal Control over Financial Reporting**

### ***2022-001 - Financial Reporting***

#### ***Criteria***

The Auditing Standards Board (ASB) issued guidance to auditors related to an entity's internal controls over external financial reporting (i.e. financial statements presented in conformity with generally accepted accounting principles [GAAP] and issued to outside third parties). Many small organizations rely on their auditor to generate these annual financial statements including the related footnotes. Statement on Auditing Standards (SAS) No. 115 emphasizes that the auditor cannot be part of the entity's system of internal control over external financial reporting. Consequently, the entity must have personnel who are capable of preparing external financial statements in conformity with GAAP even though the auditor may draft the statements on behalf of the entity.

#### ***Condition***

The County has controls in place and operating over the preparation of budget-basis financial reports, including in-depth review by management and the Commissioners and a high level of awareness of all transactions being reported. However, budgetary basis financial reporting (non-GAAP) differs significantly from GAAP financial reporting. In our judgment, the County's accounting personnel and those charged with governance, in the course of their assigned duties, lack the skills to prepare the external financial statements and related footnotes in accordance with GAAP and to prevent, detect and correct a material misstatement, if present, without additional training or additional tools.

#### ***Cause***

The County is in a rural area of Wyoming with limited access to individuals with strong financial backgrounds.

#### ***Effect or Potential Effect***

Without involvement from people with strong financial backgrounds a significant error in financial statement disclosure could occur and not be discovered and corrected in a timely manner.

#### ***Recommendation***

In our judgment, management and those charged with governance need to understand the importance of this communication as it relates to external GAAP basis financial statements. While accounting personnel, management, and those charged with governance have the skills to understand non-GAAP financial reports, we recommend accounting personnel attend training to improve their understanding of GAAP basis financial reporting specifically geared towards reporting for governmental organizations. We also recommend accounting personnel receive additional training to improve utilization of the software to produce accounting information on a GAAP basis in addition to the budgetary basis. Management may also mitigate this weakness by utilizing the services of another accounting firm to assist in compiling or reviewing the external financial statements, or by using professional tools such as disclosure checklists to enhance the review of the financial statements.

**Material Weakness in Internal Control over Financial Reporting (Continued)**

***2022-001 - Financial Reporting (Continued)***

***Views of Responsible Officials and Planned Corrective Actions***

While the County understands the guidelines under SAS No. 115, the County does not see a significant value from the technical compliance with this statement. The County feels that there is no justifiable benefit to employ a certified public accountant for the sole purpose of converting the County's budgetary basis reporting to the GAAP based annual financial statement. The County's accounting personnel have the skills and understand the County's finances to find and correct material misstatements on the budgetary basis. The lack of familiarity with all required disclosures for formal financial reporting in accordance with GAAP reflects more on the esoteric nature of many required disclosures than the management/oversight capabilities of the County's personnel. The County will review the disclosure checklists as part of its process in reviewing the GAAP basis financial statements.

***2022-002 – Material Audit Adjustments***

***Criteria***

The Government Accountability Office requires management to be responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP).

***Condition***

The County was not able to identify all balances and necessary adjustments which were significant to the financial records and financial statements. Material audit adjustments were required to prevent the financial statements from being material misstated in accordance with GAAP. Adjustments were made in inventory, and accounts payable for the County. For the component units, adjustments were made in cash, accounts receivable and accounts payable.

***Cause***

County personnel had not identified all entries needed at the time of the audit. Personnel are relying primarily on the budgetary basis of accounting without full consideration of all adjustments required for GAAP reporting.

***Effect or Potential Effect***

Significant correcting journal entries were posted during the current year. Correcting journal entries were required to adjust the balance for the governmental funds' financial statements and government-wide financial statements. While these entries are not part of the County's assessment of budgetary compliance, they do include commitments, liabilities and balances that are significant to the County's decision makers and complete financial information.

**Material Weakness in Internal Control over Financial Reporting (Continued)**

***2022-002 – Material Audit Adjustments (Continued)***

***Recommendation***

In our judgment, management and those charged with governance need to consider procedures to ensure that complete and accurate financial information is available and evaluated in a timely manner to properly record transactions in accordance with GAAP.

***Views of Responsible Officials and Planned Corrective Actions***

Niobrara County, Wyoming personnel have reviewed and have recorded the material adjustments. The County will consider hiring outside consultants to help train and assist with accounting processes and procedures in the future.
